Professional Summary

Results driven and creative Full Stack Developer with a strong foundation in front-end and back-end web technologies. Experienced in developing user friendly web applications, dynamic dashboards, and automated tools. Skilled in Agile development with a focus on performance, responsiveness, and cross browser compatibility. Passionate about UI/UX design and streamlining digital experiences.

Experience

Web Developer Intern – Africa Code Academy (Remote)

Jul 2022 – Nov 2022

- Developed responsive web application using React.js, Typescript and Node.js.
- Participated in Agile development environment with daily stands-ups and sprinting planning.
- Collaborated with senior developers on full-stack projects using modern frameworks.
- Contributed to code reviews and implemented feedback for continuous improvement.
- Built dynamic user interfaces with focus on accessibility and cross-browser compatibility.
- Assisted in database and API development for web applications.

Software Development – Self-Employed

Jul 2022 – Present

- Developed and deployed multiple web applications for local business and individuals.
- Built responsive web applications using React, Node.js and MongoDB with focus on user experience.
- Created automated tools and dashboards for data visualizations and business intelligence.
- Implemented Restful APIs and integrated third-party services for enhanced functionality.

- Collaborated with clients to gather requirements and deliver custom software solutions.
- Maintained code quality through proper documentation, testing and version control practices.
- Optimized application performance and implemented security best practices.

IT Support & System Maintenance – Self-Employed

Jul 2022 – Present

- Provided technical support for individuals and small organizations, including installation, configuration, and maintenance of software applications, hardware troubleshooting, system performance optimization, and end-user training.
- Managed backup and restore functions, configured wired and wireless networks, and ensured systems were updated and secure with the latest patches and antivirus definitions.
- Performed diagnostics on system and application errors, recommended and implemented solutions to prevent recurrence, and documented technical procedures for future reference.
- Assisted clients in selecting appropriate hardware and software to meet business or personal needs, ensuring compatibility and scalability.
- Implemented data migration processes, optimized application performance, and carried out preventive maintenance to minimize downtime.
- Monitored system logs, checked storage utilization, and performed cleanup tasks to maintain optimal performance.

Skills & Technologies

Frontend Development

React,Angular, Vue.js, HTML, JavaScript, CSS3,Redux

Backend Development

Node.js, Express.js, PHP, Python(Django, Flask), Restful APIs

Database

MySQL, PostgreSQL, MongoDB, Firebase

Mobile Development

Flutter(Dart), Adnroid(Java), Ionic, React Native

Development Tools and Practices

Git,Github, Unit Testing, Vercel, Netlify

IT Systems & Network Management

Network configuration, security protocols, firewall management

Operating systems: Windows, Linux

Hardware/software installation, maintenance, and upgrades

System performance optimization and troubleshooting

IT asset and inventory management

Technical Support & End-User Assistance

End-user training and daily technical assistance

Computer systems and applications configuration & diagnosis

Microsoft Office Suite (Word, Excel, PowerPoint, Outlook)

Commercial applications & data handling/report generation

Education

School Name	Qualification	Grade	Year
Botho University	BSc (Hons) in Mobile Computing	Upper second Class	2023
Makhalong High School	LGCSE	Pass	2018
Makhalong High School	JC	Second Class	2015
Makhalong Primary School	PSLE	Second Class	2012

Projects

Lesotho Car Registration System | Final Year Project (2023)

- Enhanced digital registration processes for improved efficiency and user experience
- Developed comprehensive system architecture addressing real-world government digitization needs
- Implemented user-friendly interfaces and optimized backend processes

UNESCO India Africa Hackathon | Winner (November 2022)

- Developed web application for Aquifer Mapping and Management of Ground Water Resources
- Acquired advanced skills in React.js and mongo database management during intensive development period
- Collaborated internationally with diverse development teams under tight deadlines

Certifications & Awards

- **2022:** Winner, UNESCO India Africa Hackathon Competition
- **2019-2023:** Dean's Awards (3x), Botho University - Academic Excellence
- **2022:** Internship Certificate, Africa Code Academy

Technical Interest

- Machine Learning and AI Integration
- Cloud Computing and DevOps
- Open Source Contribution
- UI/UX Design and User Experience Optimization

Languages

- English – Fluent
- Sesotho – Fluent
